1. UPDATES ON CFS PROCESSES

Reports from CFS 44
On October 13th the CFS 44th Plenary Session concluded by adopting the CFS Final Report including all policy decisions agreed during the week’s sessions and the conclusions from the Plenary Session debates. A new CFS Chair was elected for the next biennium October 2017-October 2019, Ambassador Mario Arvelo from the Permanent Representation of the Dominican Republic in Rome. Ambassador Arvelo made an opening speech recalling the importance of the human rights perspective to foster the vision of the CFS, the progressive realization of the Right to adequate food. See his intervention here.

The CSM delivered a final statement during the last CFS 44 session day, with an overview of the week’s achievements and challenges that can be read here. It highlighted key aspects of the CFS 44, such as the breakthrough for women’s rights, the outcomes of the Forestry process, the request for an HLPE report on agroecology, the importance of the right to food monitoring process, the CFS evaluation and other aspects.

The CSM Working Groups finalized their contributions and key messages during the CSM Forum and delivered their interventions on the different CFS Policy Processes at CFS 44. At this link you will find the CSM Opening Statement on Famines and Food Crises. At this link you will find the other CSM statements to the agenda items of CFS 44 during the week. We invite you to keep looking at the web page in the next days to also listen and watch the videos of the interventions that we are currently editing and uploading on the same page!

CSM Side Events at CFS 44 offered once again the possibility to civil society organizations, social movements and Indigenous Peoples to feed the CFS with additional spaces to further discuss, reflect and exchange perspectives on specific topics that are highly relevant for the CSM Working Groups and Constituencies’ agendas.

This year’s CSM Side events were focused on: Women and conflict, Landless, Nutrition, CFS vision and Megamerger. Stay tuned, as we are currently uploading as well the summary reports of the discussions! At this link you can have a look at the photo gallery of the events!

The CSM is sending an open call for the new Working Group on Global Food Governance. The CSM Coordination Committee agreed to establish this group with the following Terms of Reference:
The role of the CSM Food Governance Working Group will be to support the Coordination Committee, the Advisory Group as well as the CSM transversally across other WGs on issues related to the *role of the CFS in the overall food governance architecture*. In this context, the WG will take a proactive approach on the following critical issues:

- The role of the CFS in the food and nutrition governance and its relations with other intergovernmental normative spaces and institutions as well as with other international fora, platforms and initiatives;
- The role of the CFS and its relations with other levels of food and nutrition governance, notably the regional and national levels, and related institutions and processes;
- The human rights foundations of the CFS, with special but not exclusive reference to the human right to adequate food and nutrition in the context of the indivisibility of all human rights;
- The challenges of conflicts of interest within the CFS and the exploration of possible ways to tackle them.

The WG will also support the Coordination Committee and the Advisory Group in tackling selected items of the CFS evaluation follow-up process that relate to the above items.

In addition, the WG will also follow the CFS workstream related to the HLPE Report on “Multi-stakeholder Partnerships to Finance and Improve Food Security and Nutrition in the Framework of the 2030 Agenda” and facilitate the CSM contribution to the process that would emanate from it. Should it be required, a subgroup might be established to deal with this workstream.
