GENERAL WELL-BEING

Working on this Plan of Action National Councils are urged to be mindful of the Sustainable Development Goals (SDG’s) which replace the Millennium Development Goals (MDG’s) in 2015, Beijing Platform for Action and applicable UN Conventions and look to running workshops on topics/issues of importance to you.

To link the General Well-being portfolio, it is suggested this framework of the Life Cycle is used being mindful, in particular, of the girl child, the elderly and women’s social standing. Empowering women to be able to transform society requires that women’s rights become implemented at all levels of society and in all cultures. Empowering women requires the removal of all barriers to gender equality, this means ending all violence against women, acknowledging and remunerating all care work, eliminating control over assets and property and ensuring equal participation in decision making in all sectors.

i) HEALTH:

In working to empower women and enhance their general status by improving both their mental and physical health and therefore well-being across the lifespan; being mindful to the health of every woman is crucial to the development of their nation.

Ensure culturally appropriate, accessible, affordable and quality health care for all women and their families and that the principles of Sustainable Development Goals no. 3 are adhered to.

Suggested areas of work by National Councils are to:-

- Improve maternal and infant health.
- Improve the health of the girl child.
- Improve access to adequate and equitable sanitation and hygiene with special attention to the needs of women and girls.
- Ensure the accessibility to appropriate health care pertaining to reproductive health in all stages of life.
- Improve access to preventative health, i.e. education and programmes through the entire lifespan.

ii) ENVIRONMENT:

To empower women to embrace the importance of environmental issues and to collaborate with and give support to those organisations and governments at local and national levels working toward a healthy total ecosystem.

Suggested areas of work by the National Councils are to:-

- Promote the acceptance of the rights of women and of their obligations to be equally represented in all decision making processes in relation to the environment and challenges of climate change.
- Promote effective mechanisms to mitigate and adapt to climate change related issues particularly focusing on women and girls.
- Promote environmental conservation and sustainability.
- Promote and educate the community, particularly women and girls, to be prepared in the event of a natural disaster e.g.: flood, earthquake, cyclones.

National Councils to advocate for:-

- Appropriate use of Mass Media to promote gender equality e.g. in the prevention of violence, pornography and human trafficking.
- Responsible reporting of violence against all women and girls.
- Promoting good well-being including health issues, recreation and body image.
- The development of good relations with local, national and international media.

iv) MUSIC

National Councils to:-

- Promote equal access for women musicians to apply for the positions in the field of music including education.
- Raise awareness of empowerment through self-confidence.
- Recognize music as a form of communication e.g. to promote health and wellbeing.
- Promote women composers and performers.
- Insist on equal pay when negotiating salaries.
- Promote traditional folk music.
